

Pre/Post-Assessment Form (Updated: 11 September 2007)

Treatnet Training Volume A, Module 3:
Screening, Assessment, and Treatment Planning
Treatment Planning M.A.T.R.S.: Utilizing the ASI

Please complete the following pre/post-assessment form. Your responses are completely confidential. The goal of these assessments is to evaluate the effectiveness of the capacity building program and the training activities, not to evaluate you personally. Your responses are very important to us. Please do not hesitate to ask the assigned person if you have questions.

Name: _____

Name of your Centre: _____

Volume A, Module 3: Treatment Planning M.A.T.R.S.: Utilising the ASI

1. The ASI is:
 - a. A personality test for substance abuse
 - b. A diagnostic test for substance abuse
 - c. An assessment of problem areas caused by substance abuse
 - d. A medical test for substance abuse

2. Programme-driven treatment plans:
 - a. Often include only services offered in the programme
 - b. Often do not include referrals to other community services
 - c. Often are individualised to match the client's needs
 - d. Both a and b are correct
 - e. Both a and c are correct

3. The ASI is a good tool for treatment planning because:
 - a. It measures the match between programme services and the client's needs
 - b. It measures problems in the major areas affected by drugs of abuse
 - c. It is quick to administer

4. Treatment plans should include all of the following **except**:
 - a. Problem statements
 - b. Goals and objectives
 - c. Description of the program services
 - d. Specific interventions

5. List the 5 criteria for writing effective treatment plan objectives and interventions
